Pennsylvania Health Care Workers Support the COMMUNITY CHOICE ACT!

Dear Senators and Congressional Representatives,

As the largest health care workers' union in Pennsylvania, we work hard every day to provide quality care and support to our communities. People with disabilities and seniors have the right to receive that care in their homes. And they need a retainable, reliable workforce to provide that care, every day.

That's why we urge you to support the Community Choice Act—House Bill 1621, and Senate Bill 799. This important legislation will ensure that all Pennsylvanians and all Americans get equal access to the home and community based care they rightly deserve.

Sincerely,

SEIU Healthcare Pennsylvania
