New Homes Being Built in New Castle

Our team at DON (Disability Options Network) and our community partners had a vision to revitalize the Lower East Side of New Castle.

A large part of this project is the new homes being built in the Court Street area. These homes are costing between \$120,000 to \$140,000 to build but with the help of a grant from Federal Home Loan Bank of Pittsburgh, will be sold for between \$40,000 and \$50,000.

These homes have two to three bedrooms, based on family size, and are universally designed and energy efficient with attached garages!

We are looking for buyers for these homes.

If you are interested in learning more, please feel free to contact me.

Anita McKeever
Administrator of Community Resources
Direct: 724-856-4221

Look for Anita in the DON tent at the Freedom Fair/Fireworks Festival this Saturday to find out how you can purchase these beautiful new homes
